Whereas, New York State’s *Long Island Pine Barrens Protection Act of 1993* calls for comprehensive regional planning for our 100,000 acre pine barrens region and establishes goals and mechanisms for achieving that end, and

Whereas, the Long Island efforts of the Central Pine Barrens Commission and its many partners have been inspired by the outstanding and pioneering legislative, regional planning, and plan implementation work of our colleagues in and affiliated with the New Jersey Pinelands Commission, and

Whereas, 2006 marks the 25th anniversary of the *New Jersey Pinelands Comprehensive Management Plan* adoption, a milestone to be commemorated by a northeastern U.S. planning conference entitled *Regional Planning Comes of Age* this September 28th and 29th in New Brunswick New Jersey, and

Whereas, this Commission wishes to respond favorably to the invitation to become a cosponsor of, and participant in, this event, both to thank our professional colleagues for their crucial assistance with our efforts over the years, as well as to learn from, and exchange ideas with, the numerous regional planning entities to be present and to learn from such exchange,

Now, therefore, be it

Resolved, that the Central Pine Barrens Commission authorizes such cosponsorship and authorizes its members, staff, and cooperators to participate in this milestone event.

Motion by: Ms. Longo
Second by: Mr. Shea
Ayes: Unanimous
Nays: None
