

**..That Showcases the
Striking Ecosystems
and Water Resources
of the Central Pine
Barrens**

The vision for such a center has been created

Let's All Work Together

To make this vision a reality

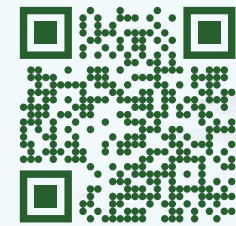

The Vision

**A state-of-the-art, sustainably designed,
interpretive nature center.**

**A place to visit where families can immerse
themselves in all the wonders of the 106,000-acre
Central Pine Barrens through dynamic, interactive
and emersive exhibits, educational programs and
hands-on outdoor learning experiences. A place to
unplug and play for all ages, all year long.**

**The plan for the center was created by a group of
visionaries with a deep appreciation of the
ecological significance of the Central Pine Barrens
and all it has to offer.**

You can view the details of the plan here:
