DONNA PLUNKETT

MR. TRIPP: Let's reopen this matter.

MR. MILAZZO: On March 22, I received a letter which I faxed to you yesterday from Mr. Sanderman accepting the pertinent languages we will be willing to consent to a thirty day extension time for the Pine Barrens Credit for this matter. Yesterday afternoon I received another letter concerning the appeal which presented just a response to some of the questions that we had at the last meeting concerning the full apprised value of the property, the tax bills which he says he enclosed but I didn't get a copy of them, and some other numbers.

I am going to submit these for the record. I believe they are numbers -- they will marked as Numbers 5 and 6; the letter from March 22 will be Number 5, and the

24

25

letter from March 25 will be Number 6.

Last evening I faxed to Mr.

Sanderman a copy, a letter we will mark as Number 7. I will give each member a copy stating that I wasn't clear that the Clearinghouse will accept the exception, the Clearinghouse may vote on the matter today, and I encouraged him to attend the meeting if he wanted to state anything more for the record.

I talked to Mr. Sanderman

yesterday and he stated he won't be

in town, he was in Garden City this

afternoon so he wasn't going to be

able to attend. This morning while

I was out of the office Mr.

Sanderman faxed to us at 11:39

another letter, again, in light of
a proposed moratorium to the Town

of Brookhaven code, a new chapter

7, a moratorium.

He requested again that the extension be granted on this application. And I have not had a chance to provide this because I just got it right before the meeting, so if you want I am giving you the proposed moratorium and also the letter from Mr. Sanderman. And we will mark those Numbers 8 and nine.

That is all the correspondence we have received to date from Mr. Sanderman on this matter. He asked for an extension twice. The first time I responded the with the letter I showed you. The second one came in this morning and it was based on the consideration of the proposed moratorium.

Off the record.

(Whereupon, an off-the-record discussion was held.)

MR. TRIPP: The first

question for us to decide is
whether we wish to render a
decision in this matter today. We
put this down at our last meeting,
Mr. Sanderman has in various pieces
of correspondence; one, I think the
one that came out two days ago he
said he would consent to an
extension without any indication
that we were inclined to think
about an extension. In that letter,
I think is that Exhibit 5 or 6, he
says that he is talking to the
Brookhaven Town Board about a deal.

MR. PALLY: He didn't say that.

MR. TRIPP: What is his exact language?

MR. PALLY: He didn't use those terms.

MR. TRIPP: Let me be accurate. Do we have a copy of that?

MR. MILAZZO: Yes, I have

this.

MR. PALLY: A Land Use Proposal --

MR. MILAZZO: That is Exhibit 5.

MR. TRIPP: "Please be advised that at this time my client is attempting to develop a Land Use Proposal which would offer a compromise on the matter of Pine Barrens credit allocation to subject parcels." So that is what he says.

The staff and I have thought about this matter. I think that we are prepared to discuss with the Board a proposal for dealing with this in a way which is consistent with the provisions of the Plan and our concept of fairness. But I think the judicial question is: Are we going to put this off another month?

MR. MILAZZO: If I may. In

Exhibit 8 which is the letter dated today, on Page 2, let me just read the language. Request is made for a 30 day extension of time so we maybe able to fully support it's impact of the proposed moratorium, as well as the Draft Economic Analysis recently completed. So in that it is a little more explicit that he is, in fact, requesting an extension. I just want to make that clear.

MR. HOPKINS: For the record,

I checked the fax machine at a

quarter to four and there are no

further faxes.

MR. TRIPP: Does anyone have any comments or thoughts? From my point of view, you know, thinking about this, I think there is merit to have decisions made. I think there are a number of other people who may be interested in this decision. I don't think there is

any particular merit in the grounds that he has given for requesting an extension.

At least my view, so long as the Clearinghouse continues to have this authority to make these kinds of decisions, I guess I don't think it is appropriate for an applicant in this kind of a situation to go to the Town Planning Board or the Town Board and workout some kind of arrangement and then come back to this body and say this is what we would like to do. I think these kind of appeals have to be made on a basis of some set of principals which can be understood. You can apply it in other situations.

It's unclear to me, if we should come to this later on after this hearing how the proposed moratorium in Brookhaven would impact on any decision we would make. It may, Brookhaven could take

some kind of an action that it
would affect Receiving Areas but I
don't see how anything that
Brookhaven does do would affect
what we may decide to do in terms
of allocation. I guess, I say the
same with respect to Dr. Nicholas'
report. So, those are sort of my
own views but I am amenable to what
anyone else wants to do.

Do you have any thoughts on this matter?

MR. PALLY: My feeling is we should make a decision. Assuming we have enough information to make a decision we should make a decision. If we don't think we have enough information we shouldn't. He has provided all the information, we had a hearing. Whatever the Town of Brookhaven decides to do is up to the Town of Brookhaven after our situation is determined. And then we can go from there.

MR. TRIPP: Do you have any different view one way or the other?

MR. DUFFY: I am not sure whether this moratorium is new information. Mr. Sanderman has asked for another extension but again, Jim, I think you have put it very well. I think we have probably all the information we need to make a decision at least at this point. I think we can proceed if the Clearinghouse decides to do that.

MS. ROTH: May I say something. I would simply like to point out that these deadlines that are imposed such as your decision deadline, are imposed for the protection of the applicant so he can be assured that the administrative body will not be sitting on his application indefinitely. Because they are

pressed for his protection he is able to waive a certain protection that he has for a certain period of time. I just want you to be aware of that.

MR. TRIPP: So, your feeling is that we should --

MS. ROTH: From a due process perspective you would be inclined to give him some additional time.

MR. PALLY: Why?

MS. ROTH: He has indicated that there is a change in circumstance that may have an impact on his application and perhaps would like more time to develop this.

MR. DUFFY: This is the first extension?

MS. ROTH: Yes.

MR. SPITZ: Could you render a decision without prejudice that he might re-apply at some time in the future, whenever he decides it

is convenient and has all the facts so this doesn't re-appear on your plate once a month?

MR. TRIPP: I think he could withdraw his appeal and I think he could have done that today for that matter. Or, if we decide to put this over to our next meeting prior to that he will withdraw his appeal. If he no longer has an appeal before us we will no longer deal with the man.

My own view is I think that is the procedure that one should follow, otherwise this is kind of a waist of resources. We hold a hearing, we consider this matter, we read additional material, we thought about it as we are bound to do and then the applicant comes in and says well, you know, wait.

MR. SPITZ: I think it is unfair to other applicants, at least it will be if you get three

or four of these running at the same time.

MR. HOPKINS: He is not requesting additional time so he can request additional information, I think we should point that out.

MR. TRIPP: Are you ready to proceed?

MR. PALLY: If Doris believes that we have a due process problem then we should probably not, if she doesn't I am ready to take action.

I don't want to in any way, you know, put us in a situation where we take a position or take action which is later found to be in violation of due process.

If you believe from that standpoint we should wait, we should wait.

MS. ROTH: I think it would be more prudent but you could at the same time fix a more definite time and this will be the one and

only extension that we will grant and that will be notice.

MR. TRIPP: Why don't we do that. We will put it over to our next meeting, our April 23 meeting, and at that time this matter will be decided. In the meantime, if he decides to withdraw an appeal so be it and then he could start the process over again.

MR. HOPKINS: He is seeking a delay in the decision.

MS. ROTH: A delay in the decision.

MR. PALLY: I would close the record then, close the hearing.

MS. ROTH: If you close the record you should not submit him an opportunity to submit anything more.

MR. PALLY: Why don't we just move to close the hearing?

MS. ROTH: The public portion of the hearing.

MR. PALLY: Thanks.

MR. TRIPP: And we will fix a date of April 23 and I think what we should do is take this matter up probably at 3:30 and then have the other matter.

MR. HOPKINS: Is the applicant paying for the court reporter services?

MS. PLUNKETT: Yes.

MS. TREZZA: They did not adopt a policy like that.

MR. HOPKINS: Why don't we make it subject to him paying for the court reporter services. He is not even here.

MR. PALLY: I think the question is if we had scheduled the hearing today no matter what, so the court reporter had to be here.

I think if we did it another time because of the request then I could agree with your statement. But, we agreed that we would extend the

hearing until today, that was a decision the Clearinghouse made.

It would seem to me that it is appropriate if we did not change the policy before that, we shouldn't change it now. This however -- that's why I move to close the hearing. If we are going to leave the hearing open and the court reporter had to come back, and that was a direct result of a request by the applicant, then I think your point should be made.

I think the Clearinghouse should pay for it in this case, close the hearing and then that's done with it.

MR. TRIPP: Does the stenographer have to be here when we render a decision?

MS. ROTH: No. The public portion is closed so there is no more transcript. You might also submit a time in which he wants to

submit whatever else he wants to submit.

MR. TRIPP: Just for material and writing?

MS. ROTH: Yes.

MR. HANLEY: I think we should make a fair policy on both sides of the fence on anything else going forward to get all of this correspondence within two days of today is ridiculous.

MR. TRIPP: I think we should set a deadline for any additional submittals two weeks from today.

MR. HANLEY: I think we should have a general policy for all situations like this to be fair to both sides at least ten days prior to the meeting or something like that.

MR. TRIPP: Did we set a date when we expected the others?

MR. MILAZZO: No.

MR. PALLY: Let's close the

hearing here first and then we can take whatever policies, those policies are going to be generic decisions.

MR. TRIPP: Do I hear a motion to close the hearing?

MR. PALLY: So moved.

MR. HANLEY: Favor.

MS. ROTH: Then you need a motion to extend the decision.

MR. PALLY: Move to extend the decision for the Clearinghouse until April 23.

MS. ROTH: With a deadline to submit any additional information by April 13.

MR. TRIPP: I would say by the Friday, April 12.

MR. SPITZ: I suggest you make it, you extend the period to your next meeting in case you had to change that date for some reason you will be restraining yourselves, you had to change the date

occasionally.

MR. TRIPP: The deadline for this particular matter for submitting any additional material will be Friday April 12.

Make a motion?

MR. PALLY: So moved.

MR. TRIPP: Second it? To grant the extension to April 23 and next meeting any additional materials from Mr. Sanderman is due here by Friday, April 12.

MR. PALLY: Or anyone else.

MR. MILAZZO: On this application.

MS. ROTH: Whichever is easier, on the 23rd or this next meeting whichever occurs first.
