

***Education and Outreach Division Update***  
***July 2020***  
***Submitted by Melissa Parrott Education and Outreach Coordinator***

***Outreach Programs:***

**Schools:**

- Due to school cancellation and focus on final exams the month of June, no school programs were completed. Instead I focused on planning and organizing our virtual Barrens to Bay camp.

***Events:***

**1. Barrens to Bay Summer Camp**

- All refunds have been issued to all 120 camp registrants.
- Our 9<sup>th</sup> annual Barrens to Bay camp will now be held virtually on Friday's from July 3<sup>rd</sup> – August 28<sup>th</sup> at 11am via zoom. This meeting application is FREE, interactive, and recordable.
- We chose locations across Long Island to expose the campers to other natural areas to visit and experience to help strengthen their Long Island and Pine Barrens natural history knowledge.

Schedule

Week 1	Friday, July 3 <sup>rd</sup> in Brookhaven Hamlet	Camper Check in's/Owl pellet dissection! /RRR/ show and tell @ CEED
Week 2	Friday, July 10 <sup>th</sup>	Animals, and Carnivorous Plants @ Quogue Wildlife Refuge in Quogue
Week 3	Friday, July 17 <sup>th</sup>  Off July 24 <sup>th</sup>	Fire Island- It's alive! @ Fire Island National Sea Shore- Smith Point
Week 4	Friday, July 31 <sup>st</sup> in Hampton Bays	Let's Seine the Great South Bay with NYS DEC staff! @ Ponquogue Park
Week 5	Friday, August 7 <sup>th</sup>	Reptiles, Birds and More! @ Sweetbriar Nature Center in Smithtown
Week 6	Friday, August 14 <sup>th</sup>	Let's meet some birds! @ Morton Wildlife Refuge in Sag Harbor &
Week 7	Friday, August 21	Our favorite "do it yourself" Scavenger Hunt! @ White Oak Trail @ Wertheim Wildlife Refuge in Shirley
Week 8	Friday August 28 <sup>th</sup>	The "other side" of Barrens to Bay! Kayak the Carmans @ Carmans River

**2. 13<sup>th</sup> Annual Pine Barrens Discovery Day 2020 – TBD**

- In lieu of our traditional PBDD event at a single site, encouraging a large attendance by students and the public, we are looking into creating an adapted version for 2020.
- Our goal is to continue our annual education of the Pine Barrens in a way to include COVID restrictions and guidelines.

- This may be in a variety of ways, including interpretive hikes at a variety of Pine Barrens locations with a limited group and activities that can be done on their own.

***Partnerships:***

**1. Brookhaven National Lab's Discovery Park  
Science Education Center**

- I was invited to represent the Central Pine Barrens Commission on a planning panel for the Science Education Center at the developing Discovery Park at BNL.
- This will be an opportunity to help create and influence what this science education center will become.

**2. 2020 A Day in the Life**

- Trainings will take place this summer with Save the Great South Bay for general citizen science collection.
- As of now, we are moving forward with our normal fall schedule and programming and will determine our final schedule in the coming weeks once we hear more from teachers and school districts.

**3. 2020 EPA Region 2 Citizen Science Equipment Loan Program**

- Due to COVID and social distancing issues on boats, the EPA has withdrawn all Microplastic Trawl loans throughout the country. We will be re-applying for next year.
- As of now, we will still be borrowing the YSI meter and turbidity tube. Since EPA staff are still working remotely, the equipment will be shipped to us and training will be conducted via an online training.

## Science and Stewardship Division Update July 15, 2020

### **Administrative:**

- We have welcomed our summer interns: Sabrina Cohn, Alana Falzon, and Kassidy Robinson. These highly qualified and ambitious women are dedicated to collecting data for the Forest Health Monitoring program. We are very excited and appreciative to have them and look forward to mentoring them this summer and helping them hone their field and research skills.

### **Commission Prescribed Fire Program:**

- **Administration:**
  - Voucher development and annual workplan revision and updates are ongoing for NYSDEC reimbursement for costs incurred from April – June 2020 for general expenses and for salary.
- **Planning:**
  - Standing bimonthly meeting with NYSDEC Region 1 and Forest Health was held on July 7, 2020 to coordinate the Prescribed Fire Program and operations on State lands.
  - Final legal review is underway on the Suffolk County Department of Parks, Recreation and Conservation draft MOU to allow for Commission-led on-the-ground prescribed fire site preparation and operations on County lands. Commission is also initiating discussions with NYS OPRHP and Town of Brookhaven for development of MOU/MOA. Final drafts will be presented to the Commission for review and approval.
  - A draft CPB prescribed fire management plan has been developed and is undergoing internal CPBC review. This plan identifies eleven high priority areas for CPB forest area prescribed burning in the next ten years and will enable SEQRA compliance.
  - One prescribed burn plan has been completed and has been sent to NYSDEC for review and approval. This plan designates a 9-acre forested zone in the Otis Pike Preserve that will be used to conduct live wildfire suppression drills for training and practical exercise purposes for all CPB wildland fire management departments.
  - A prescribed burn plan has been written for 121 forested acres in Rocky Point Pine Barrens State Forest consisting of 60 NYSDEC mechanically treated and 61 non-treated acres designated for firing to improve protection to nearby subdivisions and forest health improvement. This plan is currently undergoing internal review to be followed by outside technical review, and then the approval process through NYSDEC will be initiated.
  - Initial planning and map development has begun for the next burn plan targeted for the David A. Sarnoff Preserve.
  - The Division is working with NYSDEC Forest Health and Forest Protection to coordinate activities and collaborative efforts on mechanical reductions and fire control line installation for prescribed fire preparation, forest health and public health.
  - A Site Priorities Tracking Worksheet continues to be updated and utilized to track and coordinate ecosystem management activities between agencies and best ensure prescribed fire operations are coordinated to strategically meet ecological goals with available resources.
  - Site visits have been conducted for prioritization and development of burn plans.
- **Training and Preparedness:**
  - NYSDEC UAS training program currently on hold due to pandemic and will be resumed when feasible in order to become Commission and NYSDEC certified pilots.
  - NYWIMA course registration windows have opened, and staff will be registering to take coursework to improve knowledge and to obtain initial and ongoing qualifications for prescribed fire and incident management. Staff will also be assisting with the administration and teaching responsibilities of the academy as needed and feasible.

- **Education and Outreach:**

- Fire effects photo monitoring has been initiated at recent wildfire sites, including Manorville Hills and Otis Pike West to document the impacts of and the regeneration occurring after fire.
- Products documenting the fire history of Long Island that have been developed to serve fire program planning. This information will also serve as valuable education and outreach materials

communicating how integral fire is and has been over time in the Pine Barrens landscape and how important fire management is to reduce wildfire risk and improve ecological health.

- **Equipment Storage and Purchasing:**

- Division continues to explore options for equipment and vehicle storage for the prescribed fire program. Storage containers for the program have been specified for purchase and quotes for the containers and their modification are currently being received. Potential siting for containers at the SCWA Gus Guerrera is being explored and discussed with SCWA.
- F-550 chassis which will be used to build the Commission Type 5 Fire Engine has been specified and bid through the NY State vehicle procurement marketplace system. A list of prescribed fire equipment to outfit program has been drafted and is being reviewed. Resolution drafting has been initiated for procuring the larger specialized tools, equipment, and vehicles necessary for the safe and effective implementation of prescribed fire.

## Forest Health:

- **Southern Pine Beetle (SPB):**

- Statewide SPB Incident Command System continues to be coordinated by NYSDEC's Forest Health Unit. Operations include aerial and ground surveys, suppression, restoration, research, and forest management.
- Ground truthing surveys for SPB are actively and cooperatively being conducted by Division and NYSDEC staff within Sears Bellows, Hubbard, Southaven and Robert Cushman Murphy County Parks having previously been identified as SPB hotspots.
- Spot suppression commenced in Southaven County Park and further rapid response cut and leave suppression activities will be coordinated with NYSDEC and continue to utilize agency, Commission, and contract sawyers for suppression cutting.

- **Early Detection Rapid Response Non-native Ambrosia and Bark Beetle Monitoring Study:**

- The Division in partnership with the NYSDEC and US Forest Service finalized a Statewide six-week trapping study to facilitate early detection of non-native ambrosia and bark beetles around high risk transportation and trade hubs.
- Traps were installed at 12 locations from Brooklyn to Suffolk County on Long Island and the Division is monitored the traps installed in Henry’s Hollow State Forest and Southaven County Park and Town of Brookhaven lands off River Road on a biweekly basis until removing at the beginning of July.
- The information collected from this trapping will help both NYSDEC and USFS rapidly respond to any new non-native pest detected which may threaten regional forest health.

**ESF Cooperative Research Program:**

- The second phase of a 15-year, Long-Term Forest Health Monitoring Study (FHM) commenced in 2019 in partnership with SUNY College of Environmental Science and Forestry (ESF), Brookhaven National Laboratory (BNL) and their Science Undergraduate Laboratory Internship (SULI) program and the Commission. This is a critically important study and undertaking as the findings will identify the trajectory of Central Pine Barrens Forest health and will be used to inform the need for future management actions.
- On June 30, the Commission hired and dedicated three interns to create a modified field crew to advance the FHM study data collection due to the COVID 19 related cancellation of the SULI program. Following extensive coordination meetings with BNL, ESF, and the Commission, the second and final year of the FHM study is underway with the ambitious goal to sample the remaining 48 forest health plots in order to complete the data collection. A two-day orientation and training which initiated the field season was conducted under the leadership of Joanna Lumbsden – Pinto, Doctoral Candidate for SUNY ESF, the Commission and BNL at Sears Bellows County Park.
- A contract with ESF, to facilitate future collaborative research by students and staff, is currently being reviewed. The Contract will be presented to the Commission for review and approval.

## Empire State Pollinator Survey and Manufactured Soil and Pollinator Study

- CPBC participation in the final year of the NY Empire State Pollinator Survey project has commenced and 9 sites have been sampled so far focused on areas slated for future management as well as sites representing high biodiversity. Hand netting and bee bowl trapping are utilized to capture pollinators as a survey of the biodiversity of pollinators throughout New York State. Surveying will be done within several sites on Long Island in order to understand the diversity of pollinators in meadows, forests, wetlands, and roadsides and in response to management activities.
- CPBC is assisting with a NYSDOT funded project conducted by Cornell University Waste Management Institute which is examining the relationship between surveyed soils, vegetation, and pollinators to develop best practices for remediating and restoring disturbances caused through road and right of way maintenance and construction activities. Three sites were chosen as representative sites for this project and each of those sites has been sampled once and will be sampled a total of four times throughout the growing season.

### Invasive Species Management:

- Surveying and suppression of Caper spurge (*Euphorbia lathyris*), Chinese silvergrass (*Miscanthus sinensis*) and Japanese stiltgrass (*Microstegium vimineum*) continues to be conducted in Hampton Bays, East Quogue and Rocky Point Pine Barrens State Forest.

### Encroachment Restoration:

- A draft Request for Proposal (RFP) is being developed to solicit, vet and secure contractors for performing restoration work at existing and future encroachment and violation sites.
- **Middle Island:** Site visits were conducted to examine the extent of erosion occurring and to refit deer guards installed on the planted vegetation. An RFP is in the process of development to facilitate the restoration of both sites in Middle Island.
- **Eastport:** Division staff continues to provide restoration recommendations to the New York State Attorney General's office regarding a violation.

### Protected Lands Council

- Two PLC co-sponsored events are now available for viewing online increasing access to this information for those that were not able to attend live presentations and for use in future trainings.
  - *Identifying Menaces to Forest Health – An Early Detection, Rapid Response and Emerging Species Workshop for Land Managers* at the LIISMA website: <http://www.liisma.org/identifying-threats-to-forest-health-an-early-detection-and-emerging-species-webinar-for-land-managers/>
  - *Ticks on Parade – A Tick Identification and Tick-Borne Disease Awareness Workshop* by given by Dr. Tamson Yeh of Cornell Cooperative Extension of Suffolk County – via the Commission You-tube channel: <https://www.youtube.com/watch?v=625wzSjZEms>

### CAED Highlights 1/1/20 – 07/07/20

- Forty-one incident reports to date
- Twelve conservation easement inspections to date
- Continue work with state, county and towns on unpermitted activity
- Enforcement meetings held with SC Parks; LEC
- Camera surveillance of dump sites continues, 18 dumping investigations including six apprehensions by surveillance cams
- Drone training curtailed by Covid-19 conditions
- Significant encroachment of three SCWA sites investigated by CAED, Suffolk Co Sheriff's Office, and NYSDEC resulting in two admin settlements
- Jim Mazzio rejoined CPBC as Enforcement Officer on 6/9/20

***Pine Barrens Credit Program Report for July 15, 2020:***

Activities in the Credit Program since January 1, 2020 included review of applications for Letters of Interpretation, Conservation Easement parcel monitoring and CE signs installation, Credit Program and FOIL requests management. Some specific work items include:

- 24 Letters of Interpretations were issued, 12 in the Town of Brookhaven and 12 in the Town of Southampton.
- Five Conservation Easements are currently in process: Long Island Country Club, Long Island Home Associates Inc. (two parcels), Broidy, Hansen.
- Letters with updated list of Conservation Easement parcels were sent to the Town of Brookhaven, Riverhead and Southampton Assessor and Planning Departments.
- Letters to the private Conservation Easement parcel owners were sent reminding them of their obligations under the easement, parcels inspections and installing of the CE signs.
- Letter with updated list of Conservation Easement parcels was sent to the Suffolk County Real Property Tax Service Agency.
- Letters to solicit participation in the Credit Program were sent to owners of undeveloped land located in the Towns of Southampton (12 LOI applications received) and Riverhead Core Preservation Area.
- Letters to owners of undeveloped land located in the Town of Brookhaven, Core Preservation Area, in process.
- Armand Gustave LLC v CPB Commission litigation currently in process.
- 14 Conservation Easement Signs were installed (four in the Town of Brookhaven, six in the Town of Riverhead and four in the Town of Southampton).
- Two Notices of Violations were issued (Frank Turrigiano and Sally Lane Conservation Easement parcels).
- New *Pine Barrens Credits Brochure* has been completed and posted on the website.

<p><b>Recording an Easement</b></p> <p>The package of documents you must submit will include the following:</p> <ul style="list-style-type: none"> <li>• A completed Suffolk County Recording &amp; Endorsement Paper as the cover sheet of the package.</li> <li>• A completed New York State TP-584 form, and PBR Community Preservation Fund form (required for Riverhead and Southampton).</li> <li>• An original signed and approved conservation easement, which should be exempt from County imposed recording fees.</li> </ul> <p>In order to obtain a Credit Certificate you must submit: The insurance policy of your expense insuring the Commission as the holder of the easement and a certified copy of the recorded easement.</p> <p><b>Residual Property Issues</b></p> <ul style="list-style-type: none"> <li>• You will own the land with its development potential removed after the easement is recorded and its use will be governed by the easement. You will also own Pine Barrens Credits as evidenced by the PBC Certificate.</li> <li>• You are free to use your land consistent with the terms of the easement and other applicable land-use regulations.</li> <li>• If you do not wish to retain the property, it may be sold or donated. The easement is perpetual and therefore remains in effect and governs the use of the property even after its sale.</li> </ul>	<p><b>After Receiving PBCs</b></p> <p>The Commission has been informed that the tax assessors in the towns do not view PBC Certificates as an interest in real property and that the PBC Certificates issued to you are not expected to be subject to real property assessments or real property taxes.</p> <p>Since you will still own the land, you will still receive a tax bill. Your tax assessor may adjust your assessment based on the easement. Contact the assessor if you have questions about your assessment. If you sell your Pine Barrens Credits, there may be sales or income tax implications for you to consider.</p> <p>Once you receive your PBC Certificate you have the option to sell, redeem or retain Pine Barrens Credits for sale or use in the future.</p> <p><b>Sale or Purchase of PBCs</b></p> <p>To facilitate the sale of PBCs, you may want to contact the Clearinghouse for a copy of the PBC Registry that contains a list of people who may be interested in purchasing PBCs. You may also advertise the PBCs for sale.</p> <p>After negotiating an acceptable transaction, you and the buyer must complete and sign the form on the back of the PBC Certificate and submit the original Certificate that has an embossed area, along with a bill of sale, to the Clearinghouse. The Clearinghouse will then send a new PBC Certificate that will have the new owner's name on it to the purchaser and will send a new PBC Certificate to you for any PBCs you may be retaining.</p> <p>The Commission maintains a PBC Registry on its website: <a href="https://pbcregistry.usdoj.com/credits">https://pbcregistry.usdoj.com/credits</a> and <a href="https://pbcregistry.usdoj.com/credits">https://pbcregistry.usdoj.com/credits</a></p> <p>For information on the market value of PBCs: <a href="https://pbcregistry.usdoj.com/credits">https://pbcregistry.usdoj.com/credits</a></p> <p>Chapter 9 of the Land Use Plan details the program: <a href="https://www.suffolkcountyny.gov/Portals/0/Docs/03-13-2019/2019LUP.pdf">https://www.suffolkcountyny.gov/Portals/0/Docs/03-13-2019/2019LUP.pdf</a></p>	<p><b>Pine Barrens Credits</b></p> <p>By Pine Barrens Credit Clearinghouse for the Central Barrens Commission</p>  <p>Brookhaven Town member James T.B. Tripp, Chair</p> <p>Suffolk County member Andrew P. Pincus, Vice Chair</p> <p>New York State member Mitchell H. Kelly</p> <p>Riverhead Town member Daniel McCormick</p> <p>Southampton Town member Robert Long</p> <p>For more information, contact: Pine Barrens Credit Clearinghouse 624 Old Riverhead Road Westhampton Beach, New York 11978</p> <p>Phone: 631-286-1979 <a href="https://pbcregistry.usdoj.com/">https://pbcregistry.usdoj.com/</a></p>
