Resolved, the Central Pine Barrens Joint Planning and Policy Commission (the “Commission”) hereby reaffirms its October 21, 2015 assertion of jurisdiction over the project known as The Hills at Southampton Mixed Use Planned Development District (MUPDD) including the Lewis Road Planned Residential Development (the “Lewis Road Application”), a revision of the Hills project, and any substantially similar project proposed for the same project site because of the potential that such project(s) may have a significant adverse impact on the goals of the Central Pine Barrens Comprehensive Land Use Plan (the “Plan”), and be it further

Resolved, at its next public meeting, the Commission will, pursuant to Plan Section 4.5.3.3, preliminarily identify the Standards and Guidelines that are to be reviewed under the assertion of jurisdiction, and be it further

Resolved, given that the Lewis Road Application is subject to change during the Town of Southampton Planning Board’s ongoing review of the same, the Commission reserves the right to identify additional Standards and Guidelines to incorporate into its formal review, and be it further

Resolved, that the Commission’s formal review requires an application; therefore, if the Planning Board issues a Preliminary Subdivision approval for the Lewis Road Application, the Commission’s formal review will commence upon the Commission receipt of an application for the approved project, and be it further
