

Educational Outreach and Communications Division Update

October 2024

Submitted by Tim Motz, Educational Outreach and Communications Coordinator

“A Day in the Life” Program

- The 14th annual “A Day in the Life” program, coordinated in conjunction with Brookhaven National Laboratory and the New York State DEC, is about halfway through its season, with events already held at Fire Island, Greens Creek, Gardiner County Park, Massapequa Preserve, Carmans River, Nissequogue River, Forge River and Carlls River, and events coming up all along Peconic Estuary, Connetquot River, Jones Beach and Mill River.
- As in past years, this year’s program joins thousands of students, dozens of school districts, teachers and environmental organizations to conduct meaningful student science on waterways all over Long Island. The students test a variety of chemical properties at each site, collect marine species for study, chart their sites and document their findings.
- This year, we’ve added a “A Day in the Life Jr.” workbook to make the day more meaningful for our elementary age participants.
- Also this year, we’re working on a new data collection system we hope will provide more robust data that can be compared year to year and utilized by school districts to engage in collaborative study efforts with other districts.
- We’ve also added new school districts to the program, such as Half Hollow Hills East, and brought back school districts that had not been involved since COVID, such as Westhampton.

Barrens to Bay Summer Camp

- The budget for the 2025 summer camp has been created. It contains two new priorities for the division—the addition of another paid counselor that will help us to retain another of our most promising young counselors and a small stipend to bring in a Stony Brook professor who did a wonderful job at last summer’s camp teaching the campers about the diverse plant life at Wertheim National Wildlife Refuge.

- These additional costs, funded by Friends of Wertheim, will be offset by adding two or three additional campers to each session, which in turn helps us by not having to turn down families who want to send their kids to the camp.

Social Media

- The implementation of a comprehensive blueprint for the commission's social media efforts is underway. The project includes creating a more efficient system of password/username access; establishing division-by-division protocols for social media content creation; creating a multi-month schedule of posts to ensure we have a constant presence on social media that covers all aspects of our work; and evaluating ways to boost our social media numbers.

Misc.

- The division is planning the creation of an engaging video to promote the commission's incredible wildfire and incident management academy. We're in the planning stages of the video right now, and will be filming at this year's fall academy, which begins soon. Our plan is to show you the video at the commission's December meeting.
- In an effort to make the commission's website more dynamic with images of families having fun at various recreational activities in the Central Pine Barrens, we're working on setting a photo shoot (using some of our Barrens to Bay families as models) to capture these images.

Compliance and Enforcement Division Report August- September 2024

Prepared by CAED Chief Enforcement Officer Alena Lawston

- We received twenty-nine complaints this period for dumping, encroachment, clearing and one burglary complaint which was referred to the NYS Police. The dumping was consistent being primarily furniture, household trash and landscaping debris.
- Ten of these incidents including two of particular concern which involved hydraulic oil containers, and an air conditioner were captured on surveillance cameras and referred to our law enforcement partner agencies. Four cases were resolved with a total of \$1050 paid in fines and clean up by violators. Multiple cases are still pending.
- Along with Julie Hargrave, we coordinated a site inspection of the 76 N. Summit Blvd/4 Old Country Rd. LLC restoration project with NYSDEC's Division of Material Management Engineers.
- We continue to utilize the Flock surveillance camera and all integrated shared cameras with the outside partner agencies. This surveillance has enabled us to provide multiple leads to law enforcement for dumping within the Pine Barrens.
- UAS (Unmanned Aircraft Systems) training is continues with our new Enforcement Officer. Later in October we will both attend the two-day UAS Part 107 training provided by the NY Wildfire Academy (NYWIMA) and NYS Division of Homeland Security and Emergency Services (DHSES)

Item 3.b. Pine Barrens Credit Program Report for October 16, 2024:

Activities in the Credit Program for 2024 included review of applications for Letters of Interpretation, Conservation Easements, Credit Program and FOIL requests management. Some specific work items include:

- Letters of Interpretation: 41 LOIs were issued and seven parcels were inspected. Staff is following up on past LOIs for interest in the Program.
- Conservation Easements: Review and Monitoring
 - Five easements were recorded, which generated 2.82 credits.
 - Six easements are currently in progress.
 - 67 easement properties with road access were inspected.

- Pine Barrens Credits
 - Redeemed: 2.04 Credits have been used for commercial, industrial and residential projects in the Town of Brookhaven and Southampton.
 - Conveyed: 12.32 Credits have been sold in the Towns of Brookhaven, Riverhead and Southampton.
 - The average price is \$107,833 per credit.
- Credit Clearinghouse Program Fund Account balance: \$3,296,992.
