Planning & Policy Commission

Dear Ms. Jakobsen :

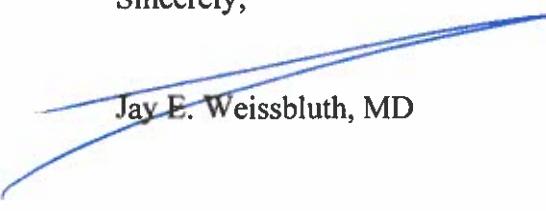

This letter is in opposition to the Lewis Road development that is coming up for a vote. In the simplest of terms, the beautiful Hamptons, which I have been a resident of for 35 years, is over congested, overbuilt and has lost its beauty over the recent past. To consider such a large development will only destroy what is left of the beauty.

I oppose the development in every way, shape and form. I understand the economics and the expansion of the tax base but this is not the answer. Everything will suffer especially the wildlife, the water and whatever is left of the beauty we have always cherished. This development must be put to rest for good. There is no replay once the damage is done.

Your time and concern in this matter is greatly appreciated.

Thank you.

Sincerely,

Jay E. Weissbluth, MD

Ms. Judith Jakobsen:

I am unable to attend the meeting on December 7 at the Brookhaven Town Hall, so therefore I am submitting my written statement.

I have been a resident of East Quogue since 1976. I think it would be a disaster if the Lewis Road development was approved. Imploging that the future of this area be protected, I pray that the right choice will be made and our Pine Barrens will be preserved. Approval of this project will adversely impact the protection of Long Island's water.

Think of our future, not money.
Think of our children and grandchildren.
Think of our water; our world.

Respectfully,
Michele E. Murray

Dear Ms. Judith Jakobsen,

We fiercely oppose development in the Pine Barrens and support its preservation.

This project adversely impacts the protection of Long Island's water and will increase the traffic on Lewis Road, which is already a busy throughfare.

The developers have previously failed so why are we still spending time fighting this?

Sincerely,

The image shows two handwritten signatures. The top signature is "Gerard A. Carey" and the bottom signature is "Leslee A. Devlin". Both signatures are written in black ink on a white background.

Dear Ms. Judith Jakobsen,

Please do not allow any development on the Pine Barrens.

This area is open space and should not be developed. It is unthinkable to consider the destruction of such an important area. Once this type of development begins, where does it stop?

We are in the area for 3 generations now, and we would hate to see these kinds of greedy projects take away from the Pine Barrens, and our clean water. Please say no!

Thank you,

Joyce Kuyava

Dear Ms. Judith Jakobsen,

I am writing to you to ask you not to allow any development on the Pine Barrens.

I am a local who plans on raising a family on the East End. I am asking you to not allow the Lewis Road Development as this area must be preserved for our local community for generations. This land is critical to our drinking water and should not be for sale.

Thank you for your consideration,

Matthew Dean

Dear Ms. Judith Jakobsen,

Please do not allow any development on the Pine Barrens, as it will negatively impact our drinking water and environment. Part of the beauty in our area is the Pine Barrens, and once this space is ruined, it will never recover and cannot be replaced.

Please say no to the Lewis Rd Development project and any other future plans to build on this critical area.

Thank you,

Alexandria Lingg

11/30/2022

Dear Ms. Judith Jakobsen,

I am writing to you to beg you not to allow any development on the Pine Barrens.

It is critical to protect our Pine Barrens and our aquifer. Any development in the Pine Barrens region should not be a consideration, as these areas must be protected and remain sacred.

It is interesting to me to read in the local papers how various agencies are working together to stop illegal dumping in the Pine Barrens, and yet, there is a consideration to build there?

If it is right, you do it. If it is wrong, you don't.

Any development in these pristine areas is just wrong. These types of projects cannot be precedent setting, and once these spaces are destroyed, there is no getting them back. Ever.

Please do not allow the Lewis Road Development.

Sincerely,

Susan Dean

Dear Judith,

The Pine Barrens are the most precious and sacred lands we have on the east end of Long Island. It is the life blood of our communities and the reason the Pine Barren Commission was created. To allow a project of this magnitude (...a golf course as an accessory bldg., you have got to be kidding ...on and on) is like planting weeds in the garden of Eden. I don't believe these developers care one iota about our community and are interested only in financial gain. I hope that you reject this project and preserve these sacred grounds forever.

Respectfully,

Robert de Young

RE:

LEWIS ROAD DEVELOPMENT

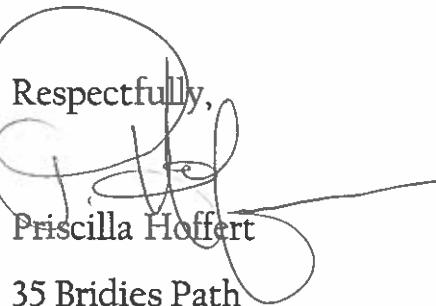

Ms. Jakobsen;

I am writing to you today to express my strong OPPOSITION to allowing any further development of the Pine Barrens. These woods are sacred to this Island and if we continue to develop them we will have nothing left.

As a native Long Islander, I can say I have grown up appreciating the beauty and natural benefits that the Pine Barrens affords us. I grew up in the Town of Brookhaven and I am now a citizen of the Town of Southampton.

I urge you to please OPPOSE ANY AND ALL FUTURE DEDLOPMENT OF THE PINE BARRENS. Please think of the future and of our children' children. What will be left if we don't preserve what we have now..

I appreciate your time and consideration.

Respectfully,

Priscilla Hoffert

Central Pine Barrens Joint
Planning & Policy Commission

Dear Ms. Jakobsen,

We went to the first meeting, then called The Hills PDD, on April 26, 2015. We walked away horrified. The numbers that the Discovery Land Developers were throwing out were staggering: 591 total acres, 56 homes, 35,000 sq ft clubhouse, restaurant, olympic sized swimming pool, hotel facilities, cabins and 18 hole golf course.

Now some of those numbers have increased 3 fold, especially the amount of mansion sized homes, to 112 at last count. More importantly, now the project has been renamed the Lewis Road PRD. This is a completely different zoning proposal. This should not be approved as a modification but must be re-submitted as a new application.

This is largest last open space in all of Eastern Long Island. Please consider what will be lost, forever; open space. The chief characteristic that has kept Long Island green and clean.

Thank you for your consideration,

Melinda Reyer
